

Staff Psychologist – The Center at CHC

Job Summary

Your compassion and exceptional discernment will be vital as you conduct assessments and evaluations, including formal psychological testing, clinical interviews and treatment plan development for young children with suspected mental health concerns. These may be part of an interdisciplinary evaluation team or as a single discipline. In addition, you will provide individual, dyadic and parenting therapy. You will also provide educational workshops at CHC and within the community on topics of expertise.

Essential Duties and Responsibilities

- Conduct comprehensive clinical interviews with parents and clients and synthesize/disseminate significant information to team members.
- Conduct psychological assessments/evaluations, including use of standardized instruments, with young children (0-5).
- Develop and deliver psychological treatment plans for young children and their families, which may include individual, dyadic, family, parent and collateral therapy and behavior management.
- Coordinate clinical care with other disciplines including SLP, OT, education and psychiatry.
- Conduct in-service training and seminars at CHC or within the community, including continuing education and parent education.
- Attend clinical staff and team meetings as assigned and serve on committees as needed to ensure program and service quality.
- Adhere to all mental health legal and ethical mandates and guidelines in the execution of duties, including timely completion of charting, billing, report preparation and ethical/confidentiality issues as outlined by the American Psychological Association.
- Participate in IEP conferences and other school meetings to assist school personnel in understanding client issues and rationale for implementation of recommendations when clinically valid.
- Meet productivity expectations as assigned by the Division Director.
- Perform at full productivity at the completion of the 3rd month of hire.

Qualifications

- PhD/PsyD in Clinical Psychology from an accredited graduate school, preferably with at least 3 years post degree experience in either/both a pediatric clinic and/or school-based setting.
- Valid California license to practice psychology required.
- Maintenance of valid California license with documentation of continuing education credits submitted to the Board of Psychology with copy provided to Division Director.
- Adherence to all professional, ethical, legal and confidentiality issues outlined by the California Board of Psychology, The American Psychological Association and State and Federal laws (eg, HIPAA).
- Thorough knowledge of procedures developmental and psychological evaluations of young children (0-5).
- Knowledge and understanding of CHC's four areas of expertise: ADHD, LD, Anxiety and Depression and Autism Spectrum Disorder.
- Knowledge and skills in young child therapies, case formulations and treatment planning.
- Excellent time management and material organizational skills.

The Center
at Children's Health Council

- Ability to work in team-oriented environment.
- Excellent interpersonal and written communication skills with both client and colleagues.
- Flexibility to respond to changing circumstances and priorities within the agency.
- Knowledge and use of computers and an Electronic Health Record (EHR) is essential.
- Bilingual in Spanish a plus.

Benefits

We value our employees' time and efforts. Our commitment to your success is enhanced by our competitive compensation and an extensive benefits package including paid time off, medical, dental and vision benefits and future growth opportunities within the company. Plus, we work to maintain the best possible environment for our employees, where people can learn and grow with the company. We strive to provide a collaborative, creative environment where each person feels encouraged to contribute to our processes, decisions, planning and culture.
